Steel Wool

1. Scope

This standard covers the requirements for steel wool.

This standard applies to the stock numbers cited in Section 6.

2. Application

Steel wool is used for surface prepping and cleaning. The following describes specific uses for the grades that SCL purchases.

Grade	Application
Very Fine #00	Uses include: - Polishing and restoring items made of aluminum, copper, brass and other bright metals - Removing old finishes from wood items - Repairing burn marks on wood or leather
Medium #1	Uses include: - Preparing wood for primary coat - Cleaning copper pipes and fittings - Smoothing raised grain - De-glossing painted surfaces before applying coatings
Medium Coarse #2	Uses include: - Removing paint or wax build-up from wood flooring - Cleaning porcelain, tile, and grout - Etching porcelain and metal surfaces
